

## North East Female Hockey - Schedule A Jersey and Sock Replacement Policy

North East Female Hockey allows the reuse of jerseys and socks from one season to the next for the Eagles and Predators programs subject to the following criteria:

1. Jerseys and socks must fit properly, have no rips, torn seams, stains, or faded due to washing etc. The coaching staff will be responsible for the initial assessment to determine if a jersey or socks require replacement. The Directors will arbitrate any disagreement.
2. Name bars on the jerseys will display the last name of the player and the name bar will be the same color as the jersey. The name bar, letter font & size will be the standard two inch letters that North East has stipulated to its supplier as has all issues regarding the style, logo, colors, etc.
3. Duplicate numbers will occur as a result of the double aging in female hockey & in fact there may be instances where three players may have the same number . In the event of duplication the following would apply:
  - A. In the event of a minor & major age player, the major age would have first choice to keep the number & the minor age player would need to select a new number.
  - B. In the event of two players of the same birth year, a flip of the coin will determine who gets to keep the number. BOTH players will share the cost of the new sweaters for the player losing the toss.
  - C. In the event of three players of the same age or combination of birth years the major age player would have first choice or a flip of the coin if two or all three of the same age. Again, ALL players affected will share the cost of the jerseys for the two players that did not win the toss or were accorded the number by majority age.
5. In 2018-2019 the Eagles program will be updating their look and all participants at the A level will be required to purchase both home and away jerseys with matching home and away socks.
6. In the event the supplier is unable to acquire & supply jerseys of the current

style and color, new jerseys may be required for all players.

7. Coaches will meet with their team within a day or two of team selection to determine sock and jersey replacement needs for the current season subject to the criteria's outlined above. The directors will advise contact information to all coaches selected to ensure sweaters & socks are available for league play.
8. Players are responsible for all uniform costs through their respective teams.
9. **Sweaters and socks are to be worn only for games.** Any socks/sweaters damaged will need to be replaced at the players cost. Sweaters may be entrusted to the coaching staff during the season.
